BLIAR

George W Bush returns to support his candidate

It's official

It is now clearer than ever that the Prime Minister lied about Iraq. His promise to George W Bush was more important to him than being honest to Parliament and the British people about the legality of invading Iraq. People died as a direct result of that lie. Eighty-five British soldiers, including Tom Keys, over 1000 Americans and 100,000 Iraqis. Dead. And who is to blame?

Do Labour a favour Get rid of Blair

Tony Blair has become a liability for Labour. People don't trust him. He misled the country into an illegal war. He has disappointed Labour voters everywhere.

You can change Labour for the better. On May 5, you can defeat a Prime Minister in this constituency and change Labour for the better. **Vote Reg Keys on May 5.**
